

Berlin Sohn

Front End Web Developer

Technologies

HTML/CSS

Strong understanding of HTML5. Ability to create a responsive, optimized design using only CSS3. Inherent design sense, understanding of visual completeness and quality

JAVASCRIPT

Ability to implement vanilla JavaScript in DOM manipulation. Basic understanding of ES6 syntax, and always eager to learn better methods to create cleaner code

JQUERY

Proficient in leveraging jQuery for client-side interactivity. Ability to incorporate existing JavaScript and jQuery plug-ins. Knowledge in using AJAX for server interaction

BOOTSTRAP

Experience optimizing design with Bootstrap and MaterializeCSS frameworks. Able to learn and implement new frameworks quickly and effectively.

GIT/GITHUB

Continually learning the power of Git as a version control system. Regularly push files to GitHub

UX/UI & PHOTOSHOP

Appreciate a mobile-first approach to web development. Always improving the user experience and SEO. Working knowledge of photoshop and graphic design

Education

Coding House

Silicon Valley, CA

Fully Immersive MEAN Stack Coding Bootcamp

July 2015- Sept 2015

College of St. Scholastica

Duluth, MN

(B.S.) Bachelor of Science

Summa Cum Laude, December 2013

Projects

A functional calculator in jQuery styled with Bootstrap:

<http://berlinpaige.github.io/calculator/>

A spin-off game of Towers of Hanoi made with jQuery and implementing the jQuery UI plug-in:

<http://berlinpaige.github.io/icicles/>

A simple weather app using Weather Underground's API and MaterializeCSS framework for styling:

<http://berlinpaige.github.io/weather-app/>

A game of Hangman in jQuery and Bootstrap:

<http://berlinpaige.github.io/hangman-game/>

Unique Experience
